GHETTO GOVERNMENT PRE-RELEASES **"UNITED"** IN THE WAKE OF TERRORIST ATTACKS

The Bowery, New York:

The web-based record label, bowery.com, has been busy preparing to launch with the introduction of the Ghetto Government. In the middle of it all, the twin towers came down. Screams of despair, and then revenge came from all quarters. Mixed with the love is too much hate, directed towards still more innocent people, especially of Islam. So the double-G's have decided to pre-release their single early, to radio stations in the city, so that the song "UNITED" can be heard as soon as possible.

As Nitty, rapper and president of the GG puts it, "this song represents Ghetto Government to the fullest. We are all products of the streets. Our goal is to unite the globe, starting with hip-hop. This song expresses not just what hip-hop needs, but what the entire world needs. This is the time to come together as a nation and really help one and other."

Adds producer Marc Lindahl, "this song expresses our hope and vision for a united hip-hop community, city, and world. We really hope to squash the intolerance that's been sparked recently and influence people in a positive way..." and Nitty adds, "because United is the only way."

The GG plans to donate proceeds from the sale of the single (once it comes out) to a WTC disaster relief fund.

So please spin this song, in the name of Unity!

Sincerely,

Ghetto Government (Tobasco, Walah, O-Negative, Crane, Dras, Nitty, Marc)

The brainchild of Nitty - Ghetto Government. But like any child that grows, and learns and changes, so the GG has with every new member. It's become bigger and better than even it's chief architect could have imagined.

The artists Nitty, Walah, O-Negative, Crane, Dras, & Tobasco form the core of the GG, with many others on deck and in the bullpen. Combined they've brought a new kind of heat to the game.

Ghetto Gov't is an organization formed to uplift the Ghettoes and unite the Globe, feed the hungry, and House the homeless. Through music we hope to grab the attention of the world, because our music is universal. Ghetto Gov't is not a cult, religion, nor a gang. Ghetto Gov't is about global peace, not war, but Ghetto Gov't will violate violators.

Ghetto Gov't came together in the streets of New York City. Ghetto Gov't has members from other states, but New York was the meeting place for Artists down with Ghetto Gov't ; as they were on a mission for music. Ghetto Gov't has numerous Artists, but hundreds of members. Hundreds will be thousands, thousands will be millions etc.

Our long term goal is to own natural resources. Ghetto Gov't wants land, to be able to build low income Community's.
